CHIRANJEEV SINGH

Java Backend Developer

GitHub: chiran1612 — LinkedIn: chiranjeevsingh1612 — Portfolio Website — chiranjeevsingh1612@gmail.com — +91 8076388302

Summary

Java Backend Developer with 3+ years of experience building scalable REST APIs, Spring Boot-oriented backend services, and enterprise platforms using Java and MongoDB. Skilled in API integration, backend performance optimization, Nginx configuration, containerized deployment with Docker, and AI-assisted development workflows.

Work Experience

Software Development Engineer, Kaptune Media Pvt Ltd 2022 – present

- Integrated GitHub, GitLab, and Bitbucket APIs to automate developer operations, improving developer efficiency by 40–50%.
- Implemented customized reporting features tailored to specific customer requirements, contributing to a 30–35% increase in company revenue.
- Participated in code reviews, improving code quality and increasing code reusability by roughly 25–30%.
- Designed and optimized MongoDB schemas and Nginx configuration, improving application request handling performance.

Projects

Farmer Card App – Containerized Deployment GitHub Live Application
Built a Spring Boot and Thymeleaf app, containerized with Docker, and deployed via Docker Hub to Railway.

Qrrectly: Billing Management System Live Application
Backend systems for subscription billing and financial workflows, with customized reporting that grew revenue 30–35%.
Tech Stack: Java, MongoDB, REST APIs, Nginx

Antrika: Developer Workflow Automation Platform Live Application
Automation integrating GitHub, GitLab, and Bitbucket with AI-driven code review, improving developer efficiency 40–50%.
Tech Stack: Java, MongoDB, REST APIs, GitHub API, GitLab API, Bitbucket API

Trackwick: Workforce Management Platform Live Application
Backend APIs across workforce, attendance, payroll, and task modules, improving scalability and reliability.
Tech Stack: Java, MongoDB, REST APIs, Nginx

Learning & Development

Currently Learning: Spring Boot, Docker, Kubernetes, Amazon Web Services (AWS), and Google Cloud Platform (GCP) through hands-on projects and continuous upskilling.

Education

Guru Tegh Bahadur Institute of Technology, New Delhi
B.Tech in Information Technology, CGPA: 9.0 2018 – 2023

Technical Skills

Languages	Java, C++, C, SQL
Core Java	Object-Oriented Programming (OOP), Multithreading, Collections, Exception Handling
Backend Technologies	REST APIs, RESTful Web Services, API Integration, Backend Development
Databases	MongoDB, SQL, Database Design
Cloud & DevOps	AWS Lambda, Nginx
Tools	Git, GitHub, GitLab, Bitbucket, Jenkins, Postman, SonarLint, JIRA, Redmine, Robo 3T, VS Code, Eclipse
AI-Assisted Development	OpenAI Codex, Claude, Gemini, Kiro, NotebookLM, Model Context Protocol (MCP)
