Summary

AI-Assisted Software Development Engineer with 3+ years of experience in Java backend development, REST APIs, MongoDB, AWS Lambda, and Nginx. Experienced in building scalable enterprise applications, workflow automation platforms, and AI-powered developer tools. Skilled in Agentic Coding, Model Context Protocol (MCP), OpenAI Codex, Claude, Gemini, and modern AI-assisted software engineering practices. Familiar with Spring Boot.

Work Experience

Software Development Engineer, Kaptune Media Pvt Ltd 2022 – Present

- Developed scalable Java backend systems and REST APIs for enterprise web applications and automation platforms.
- Built workflow automation systems by integrating GitHub, GitLab, and Bitbucket APIs to automate developer operations, improving developer efficiency by 50%.
- Designed MongoDB schemas, optimized backend performance, and improved request handling using Nginx.
- Delivered production-ready backend solutions across multiple enterprise products through cross-functional collaboration and agile development practices.

Projects

Qrrectly : Billing Management System (Web Portal) https://platform.qrrectly.com/login

- Developed backend systems for sales, subscription billing, invoicing, vendor management, and financial workflows.
- Designed scalable REST APIs and MongoDB schemas for business operations and reporting modules.
- **Tech Stack:** Java, MongoDB, REST APIs, Nginx

Antrika (Web Portal) https://antrika.ai/

- Developed automation systems integrating GitHub, GitLab, and Bitbucket APIs to automate developer workflows and repository operations.
- Implemented AI-driven code review workflows including smart PR review suggestions, contextual feedback, and automated developer assistance features.
- Built AI-powered workflow optimization features that improved developer efficiency by 50%.
- **Tech Stack:** Java, MongoDB, REST APIs, AWS Lambda, GitHub API, GitLab API, Bitbucket API

Trackwick (Cross-Platform Application) https://go.trackwick.com/

- Developed and optimized backend APIs for workforce, attendance, payroll, and task management systems.
- Improved backend scalability and performance for enterprise operational workflows.
- **Tech Stack:** Java, MongoDB, REST APIs, Nginx

Education

Guru Tegh Bahadur Institute of Technology, New Delhi 2018 – 2023
B.Tech in Information Technology
CGPA: 9.0

Technical Skills

Core Backend	Java, REST APIs, MongoDB, AWS Lambda, Nginx
AI Engineering Tools	OpenAI Codex, Claude, Gemini, Kiro, NotebookLM, MCP (Model Context Protocol)
Languages & Databases	Java, C++, C, MongoDB, SQL
Tools	Git, GitHub, GitLab, Bitbucket, Jenkins, Postman, SonarLint, JIRA, Redmine, Robo 3T, VS Code, Eclipse
Exposure / Familiarity	Spring Boot
